

CITY INSTITUTIONS VIOLATE SMOKE LAW

Committees From Abatement Association Will Assist Inspector Jones in Checking Nuisance.

The Executive Committee of the Citizens Smoke Abatement Association yesterday afternoon at the Mercantile Club decided that a special effort should be made to have the authorities abate the smoke from city institutions. A subcommittee was also appointed to look after the enforcement of the law among West End hotels, apartment houses and other buildings in that section which have not put in smoke consumers.

ban C. Nugent, president; George M. Wright, Charles F. Bates, George W. Brown, W. H. Woodward, William H. Bryan and Eugene McQuillin, secretary, were present at the meeting, the secretary stating after they adjourned that in the opinion of the members fully 70 per cent of the smoke nuisance has already been abated in St. Louis. This estimate, however, leaves out of account the heating plants which have been closed down for summer.

plants which have been closed down for summer.

"Our first plan now," said Mr. McQuillin, "is to stir up the city officials with reference to the various public institutions. The city at present is one of the chief violators of its own law. They have not installed smoke consumers in the various public buildings. A committee composed of President Nugent and myself was appointed to confer with the authorities upon this subject. In matters of this kind excuses are made that funds are not available, but we will see if it is not possible for the city treasury to dig up the cost of smoke consumers and have them installed.

In addition to the committeemen already named Robert Moore, O. L. Whitelaw and Charles F. Bates were appointed to look after smoke abatement in the West End. where several hotels, hospitals, schools and apartment houses are reported to have belchers of the worst kind. The committee will co-operate with Charles H. Jones, Smoke inspector, in informing the offenders that it is not a difficult matter to abate smoke, and that unless they install consumers, or else contract for smokeless fuel before fail, vigorous prosecutions against them may be expected.

"It is the sense of the committee," said Secretary McQuillin, "that all heating plants, whether downtown or in the West

End, will receive ample notice to install smoke-consuming devices before cool weather sets in. If they fail to put them in, then we will stand by the Smoke Inspector in bringing the violators into court. There is no longer any question about the practicability of abating smoke at any kind of plant. This fact has been demonstrated beyond a doubt. Offenders must read at the meeting to the effect that the twelve defendants in recent prosecutions, who pleaded guilty and were assessed the costs, are now installing smoke-consuming devices. Mr. Jones also reported that he is preparing cases against other offenders, and will order several arrests in a short time.

EVIDENCE IN MEYER CASE IN. Thirty Witnesses Were Examined in the Trial.

The hearing of testimony in the divorce suit of Estelle D. Meyer against Doctor Edmund Y. Meyer was finished in Judge Wood's division of the Circuit Court yester-Wood's division of the Circuit Court yesterday and the case was taken under advisement. Mrs. Meyer testified yesterday in rebuttal of the aliegation made by husband that she had stated that she wanted to leave him and go to New York, where a man to whom she had been engaged prior to her marriage to Doctor Meyer lived.

Mrs. Meyer denied that she made the statement. She said she had not seen the man, or communicated with him since the engagement was broken, thirteen years ago. More than thirty witnesses were examined in the case, the trial of which occupied more than two days and a portion of yesterday. Mrs. Meyer charged her husband with drinking and not having treated her properly. He averred that she was fealous, threw a lamp at him and struck him with a fistiren.

IN BRIBERY SCANDAL

pear for Trial and Attorney Pleads Ignorance.

Minneapolis, June 17. - Sensations came thick and fast in the police bribery cases to-day. When time came to open the trial of Thristopher Norbeck, detective, on a charge of bribery, W. W. Erwin, his attorney arose and confessed that he did not know the whereabouts of his client. He had an appointment with Norbeck last night, but accused had not kept it, nor had he called at the attorney's office this morning. Since the conviction of Gardner, special officer, and the commitment of Detective Harvey for perjury, Norbeck has been very despondent and has threatened suicide, Mrs. Norbeck told a reporter that her husband left home with another man at 8 o'clock ast night and she had not seen him since Another sensation developed when it be-ame known that Albert A. Ames, Mayor of Minneapolis, had been indicted by the Grand Jury, on a charge of offering a bribe It is asserted that the Mayor en-legyored to have his secretary, Thomas R. Brown, appointed Sheriff by the County Commissioners, when it became evident that Philip Megaarden would be removed from the office by the Governor for mal-

In attempting to carry out this plan he is alleged to have offered to so arrange matters that the \$20,000 annual income of the Sheriff's office should be divided equalbetween Brown and the three County Commissioners, who were to vote for him, forming a majority of the board. The evidence to this effect was given to the Grand Jury by County Commissioners M. W. Nash

and Ed Sweet.

Doctor Ames has been four times Mayor of Minneapolis, having been elected thrice as a Democrat, and again in November, 1980, after having been cut of office for some years, as a Republican. He is a vet-eran of the Civil War, in which he served as surgeon, and is a G. A. R. man.

and his sister-in-law, Mrs. Thomas C. Gor-man, were arrested yesterday, charged with the murder of the latter's husband.

Thomas Gorman, who was a wealthy cattle owner, disappeared from his home two weeks ago, and his wife and brother gave out that he had gone West to seek enother location for their herds. A few days later Mrs. Gorman and James

began selling the personal property at the ranch. After disposing of as much of it as they could, they departed with a six-horse wagon, taking with them Mrs. Gorman's -year-old daughter. Neighbors became suspicious and made a earch of the premises, finding the mu-

ilated body of Thomas Gorman buried in he garden. Sheriff Hale started in pursuit of the couple and arrested them near Cody. Gorman was disposed to fight and was handcuffed with difficulty. The little girl was

not with them, and it is thought her body is in the Big Horn River. Much excitement has been caused by the arrests, and the citizens are demanding that the child be produced, unharmed, at once.

Constable Held Property Until Judgment Was Paid.

Two furniture vans, londed with show material, and a band wagon stood opposite the Courthouse for over two hours yesterday guarded by a watchman, who placed in charge by Deputy Constable John Ellison of Justice Spaulding's court until the owner of the property, king E. Ziemer, paid the balance of a judgment, amounting with costs to 480, in favor of the American Light and Fixture Company.

Ziemer exhibited a show in different parts Company, a show in different parts

of the city, the last being at No. 4100 North Broadway. The American Light and Fixture Company, which furnished him with light for the show, brought suit against him in Justice Spaulding's court and obtained judgment, a portion of which was paid.

Testerday Ellison saw the furniture vans and band wagon at Fourth and Chestnut streets and levied on the property immediately.

WIGGINS FERRY COMPANY WINS.

Judge Wood Decides It Cannot Be Taxed as Railroad. Circuit Judge Wood ruled yesterday in a suit brought by the City Collector against the Wiggins Ferry Company for taxes, that the company cannot be taxed under the law relating to the taxation of railroads.

The Wiggins Company set up this contention in its answer and averred that all of its property was embraced in the regular assessment of its assets. The Collector moved to have this portion of the answer stricken out. Judge Wood overruled the motion.

DID NOT REFLECT ON PRESENT COUNCIL

Minneapolis Detective Fails to Ap. John O'Brien Declares He Only Recited Adverse Coditions Confronting His Company.

> John O'Brien, president of the John O'Brien Boiler Works Company, replying to the article in yesterday's Republic containing statements of President Hornsby a . Vice President Boyce of the Council, voicing their displeasure at Mr. O'Brien's criticisms of the Council's attitude toward manufacturing interests, said yesterday;

> "An ordinance for a switch track Mullamphy street was introduced in the City Council preceding the present one. It was referred to the Railroad Committee, of which Mr. Wiggins was chairman, and after being considered at public hearings was reported favorably by said committee, but before it could be acted upon by the whole Council the Assembly adjourned, and the neasure was killed.

> "After the present Council organized, the ame bill was reintroduced; was referred to the present Railroad Committee; was considered by the same at public hearings, and after being held in committee for some time was finally reported adversely by Messrs Boyce and Shechan, the other memher, Captain Hodges, being absent from the city, and the report was approved by the Council, and thus again the measure was

> the provisions of this ordinance, else he would hardly have made the excuse quoted by you, for the action of the Council, viz.: We concluded that Mullamphy street should not be converted into a Poniss. "President Hornsby surely does not recall or concluded that Audianphy street should of be converted into a Poplar street. We do not believe the people of North St. outs wanted conditions similar to those revailing on Poplar street. In this concetion, I quote a provision of the ordinance high we asked, as follows:
>
> "Provided however, that the tracks here, authorized to be constructed and mainined shall be operated only at nightting

"Provided, however that the tracks hereby authorized to be constructed and maintained shall be operated only at nighttime between the hours of 12 o'clock midnight and 5 o'clock a.m.

"As Captain Hodges well said, on the hearing before the committee of the prior Council, in answer to the same objection, it is absurd to claim that a switch track operated at the hours named in the ordinance would produce the Poplar street condition. And when it is considered that Mulianphy is a wide street, and not the narrow lane that Poplar street is, the absurdity is more apparent.

"As to the suggestion that reflection has been east upon the City Council, I simply desire to disclaim that I have done so. All that I have attempted to say, and to emphasize, is that my company, and other manufacturers and property owners on Mulianphy east of Fifteenth street have asked for reasonable railroad facilities, so reasonable that we could hardly have limited the use of the tracks beyond what we offered without destroying all benefit, and the City Council has met off requess and petition with an emphatic refusal in this connection I desire to add that the passage of this ordinance was pentitioned for, as provided for by the law of the State, by the owners of considerably more than a majority of the frontage on the part of the street to be occupied by the track.

"Under the conditions of a growing business and the constantly increasing necessity for railroad facilities, which we have asked and which has been refused, we have been forced to face the question of removing our works to a location outside of the city, where we can have the switching facilities we need and must have. The situation is not pleasant. We do not want to leave St. Louis. We would like to continue here the business which started life here. But it is a condition, and not a sentiment, that confronts us."

HAD NEITHER STOVE NOR BED

Mr. and Mrs. A. J. McGarvey Lived Economically for Ten Days.

Without a stove or a bed, Mr. and Mrs A. J. McGarvey lived for ten days in a home on the Clayton road before finally disappearing after McGarvey had been at nizance on a charge of passing a worthles check on a baker in Clayton, McGarvey was arrested Saturday night. Sanday night, although his home was watched by his landlord for several hours, he disap-peared, and at the same time his furniture was hauled away. The landlord was Joand any the same time his furniture was hauled away. The landlord was Joseph Neier, whose home is close to the house in which McGarvey lived. Mr. and Mrs. Neier stayed up Sunday night until 11 o'clock, keeping watch on the place, and then went to bed. Monday morning they noticed that there was no sign of life about the place, and Monday at noon Neier crawled in through a basement window and found the house empty.

McGarvey lived in the county about three menths. He first boarded with his wife at the home of James Clark of Clayton. Then he moved into Neier's house. He told Neier and Clark that he was from Plitsburg and that his furniture was stored there. He was a man of pleasing address, and Neier lent him a stove and Clark several pieces of furniture, among others a folding bed.

Last Saturday a week ago they became

eral pieces of furniture, among others a folding bed.

Last Saturday a week ago they became suspicious and went to McGarvey's home. Neier took his stove and Clark his folding bed. The furniture taken Sunday night belonged mostly to Clark, and the latter is now looking for McGarvey.

McCarvey said he was employed in the World's Fair architectural department. Both civil and criminal proceedings are pending against him in Clayton. Neier sued him for rent, and H. J. Smith, a Clayton baker, who cashed the worthless check, is the complainant in the criminal proceedings.

McGarvey is about 45 years, of medium size, florid complexion and wears a closely cropped beard. His wife is several years his senior, tall, slender and gray-haired.

OF A REMARKABLE CASE NOW PUBLISHED FOR THE FIRST TIME.

Mrs. Nichols Makes a Statement, Telling to the Best of Her Knowledge the Causes Which Led Up to This State of Affairs.

The following facts, says the Belfast, Me., Republican Journal, have never before been published. The incident caused much comment at the time, and it was thought worth while to make an investigation. With this end in view, a reporter called upon Mrs. Elizabeth Nichols at her home in Searsport, Me., and obtained the following information. She said:

"About six years ago my nerves broke down completely and my whole system became a wreek. I suffered dreadfully from indigestion and my eyes were very weak. I had frequent fainting spells. Finally my sight failed me entirely, and I had to have my eyes bandaged all the time.

"This state of affairs," she continued, "lasted for a year, when I was forced to go to bed and stay there constantly. I became so weak that I could only take two tablespoonfuls of milk at a time. I could not feed myself and sleep was almost impossible. This lasted another year, and I was then in such a state of nervous exhaustion that when my people wanted to make my bed they could move me only a few inches at a time. I had become extremely thin and was still losing fiesh. I had tried nearly all the medicines in the market, but failed to find any that helped me."

"But how were you cured?" asked the interviewer.

"But how were you cured?" asked the interviewer.

"Til tell you: My condition finally became so critical that my family expected me to die any day. Then my husband bought some Dr. Williams' Plnk Pills for Pale People, and three days after I began taking them I could eat without assistance, and in a week I could sit up and be dressed. After I had taken five boxes of them I began to gain flesh. I continued the use of Pink Pills for Pale People until I had taken ten boxes, and move to a new home. After reaching there I took two more boxes of the pills, and I have been able to work hard and take care of my family of five people ever since."

Dr. Williams' Pink Pills for Pale People are sold at fifty cents a box or six boxes for two dollars and fifty cents, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y. "But how were you cured?" asked the

REPUBLICANS OBJECT TO POLLING PLACES

Are Blaming Election Commissioner Alce for "Geographical" Locations in Two Wards.

St. Louis Republican Club delegates to the onventions are objecting to the location of the polling places in the S venth and Twenty-second wards. They claim that Election Commissioner Louis P. Aloe, the his influence in behalf of the Kerens delegations and located polling places accord-

ingly. For years it has been the custom to hold the primaries of the Second Precinct of the Seventh Ward at No. 1913 Carroll street. The congressional primary was held there. Now the politing place has been changed to No. 1831 South Twelfth street, a point at the edge of the ward and across the street from the salcon of Joseph M. Cizek, a dele-

gate on the Becker Ucket, Opponents of "Tub" Becker claim that Cizek came near causing their delegation to be thrown out by giving them the "double or thrown out by grang their the cross." The Troils and John H. Becker live in the same neighborhood, a fact which bodes no good to the anti-Becker delegation. In short, it is claiment that Becker has all the best of it in the location of the poining place in this precinct.

in short, it is claimed that Becker has all the best of it in the location of the polling place in this precinct.

About the same charge is made in the Twenty-second ward. Usually the primary polling place has been near Jesterson and Washington avenues. This year, the Akins delegation is said to have a number of negroes in that neighborhood whiling to get busy in its behalf.

However that may be, the voting will be done at No. 719 North Ewing avenue, the headquatters of the Twenty-second Ward Republican League Club. This is the organization which was recently turned over to the Comfort-Kerens faction after Hiram Lloyd had been relieved from paying the club's debts. Though he is the president of the Roosevelt Club, he is on the Kerens delegation, a piece of inconsistency in the eyes of many Republicans. With the polling place in the domicile of the ward club, the odds are laid against the Akins delegation. The ward extends to Twenty-third and Carr streets, so geography evidently cut no figure.

Undoubtedly the contest in the Fifteenth Ward will be carried to the State Convention. The judicial delegation filed by City Committeeman Schlingman has been thrown out, as one of the delegates moved out of the ward. Clinton A. Welsh and other Republicans have made speeches in the ward, saying that the contest would be taken to Jefferson City. They expressed small fear of the results. If this is the case, the Akins control of the State Convention is tolerably complete.

A feature of the ward fights which is believed in the inscription, "Let Well Enough Alone." This probably is the beginning of the Hanna boom in Missouri. The Akins hearing the inscription, "Let Well Enough Alone." This probably is the beginning of the Hanna boom in Missouri. The Akins hearing the inscription, "Let Well Enough Money to the Survivor Hell D Reunion."

The annual reunions were in former years very imposing affairs, being usually attended by hundreds of citizens, aside from the veterans; but, through the agencies of death and removal, the attendance dwindled until for three years past it has devolved upon Mr. Burr to maintain the custom, which, he says, will be done as long as he lives.

Having been the Orderly Sergeant of the company which Edgar County contributed to the quota of Illipois troops, Mr. Burr has carefully preserved his roll book, and each year he checks off the names of the dead, absent and missing. His task is nearly done, for all of the survivors are in fee-
